Soft Skills

Problem-solving, adaptability, collaboration, time management, mentorship, attention to detail, critical thinking, quick learning, and decision-making.

Internship

web developer intern, Cumin 360 technologies

06/2023 – 01/2024

Bengaluru, India

- Developed responsive UI using **HTML5**, **CSS3**, and **React.js**.
- Integrated **RESTful APIs** and ensured cross-browser compatibility.
- Contributed to feature enhancements for the 'FeeOn' financial software.
- Used **Git** for version control and collaborated with teams.

Technologies: HTML5, CSS3, React.js, Git, APIs

Data Analyst intern, Unitech Academy

03/2024 – 05/2024

Bengaluru

- Applied **ML algorithms** for data analysis and insights.
- Utilized **NLP** to process and interpret text data.
- Conducted analysis to extract trends and meaningful information.
- Developed and implemented models for data-driven projects, ensuring accurate results through data preprocessing.

Projects

Personal Portfolio Website

present

- <https://portfolio-webbbsite.netlify.app/>
- Developed a responsive portfolio website using React.js, Next.js, and Bootstrap.
- Implemented light/dark theme toggle and dynamic navigation.
- Optimized for all devices with AI-themed animations and interactive design.

NLP(Natural Language Processing)

2024

<https://github.com/Mahi-kehkasha/NLP-20Newsgroup.git> 

- Developed an NLP model using Python, NLTK, and SpaCy for text classification.
- Applied tokenization, lemmatization, and stemming for preprocessing.
- Built a sentiment analysis model using Word2Vec and TF-IDF, and evaluated with accuracy and precision metrics.

Final year project, (E-commerce application)

2024

https://github.com/Mahi-kehkasha/mern_ecommerce.git 

- Built an E-commerce app with EJS, Express, Node.js, and MongoDB.
- Integrated PayPal and Razorpay for payments.
- Created a responsive UI with Bootstrap and added Twilio SMS notifications.
