NoSQL (MongoDB)

Version Control
Git, GitHub

Soft Skills
Strong analytical skills, problem-solving, effective communication, collaboration

Education

Bachelor of Computer Applications,
Bengaluru North University
2024 | Bengaluru, india
CGPA : 8.29

Professional Experience

Mern stack trainer, *Skillcave*
2025 – present | Bengaluru, India

- Delivered hands-on training sessions on MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Designed and structured curriculum covering full-stack concepts, RESTful APIs, CRUD operations, authentication, and deployment.
- Mentored students through project development, debugging, and Git/GitHub version control best practices.
- Conducted code reviews and provided one-on-one support to help students strengthen problem-solving and coding skills.
- Developed internal tools and live demo projects to illustrate key MERN stack functionalities in real-world applications.
- Received positive feedback for clear instruction, technical depth, and ability to simplify complex topics.

Web Developer, *Aril Shared Services – Remote*
2025 – present

CSAS NGO Official Website *Role: Web Developer*

- Designed and developed the official CSAS NGO website using WordPress, emphasizing accessibility, mobile responsiveness, and user engagement.
- Customized themes and integrated key plugins for streamlined donation processing, event management, and volunteer registration workflows.
- Ensured cross-browser compatibility and optimized site speed for a seamless user experience.
- Collaborated closely with the NGO team to align website content and features with organizational objectives.
- Handled ongoing site maintenance, backups, and implemented basic SEO strategies.
- Website: https://www.centersas.org/

Skillcave Website

- Developed and managed the Skillcave platform website, focusing on usability and responsive design.
- Ensured smooth navigation and performance across devices and browsers.
- Website: https://skillcave.in/

Projects

Personal Portfolio Website
2025
- https://maheencodes.netlify.app/
- Built a **responsive portfolio** using **React.js** and **Next.js**, incorporating a light/dark mode toggle for enhanced usability.
- Ensured fast load times and optimized user experience with structured navigation and cross-platform compatibility.

Final year project, *(E-commerce application)*
2024
https://github.com/Mahi-kehkasha/mern_ecommerce.git
- Developed a full-stack e-commerce platform with secure payment integration using **Stripe API**.
- Implemented real-time notifications using **Twilio** to improve user retention and engagement.

NLP Based Analysis of Newsgroup content
2024
https://github.com/Mahi-kehkasha/NLP-20Newsgroup.git
- Built an **NLP model** with **scikit-learn** and **NLTK** to enhance content categorization and sentiment analysis.
- Delivered tailored content recommendations, improving user interaction and engagement metrics.

Certificates

JavaScript Algorithms and Data Structures
freeCodeCamp | Credential ID: fcca54b9eeb-7239-45a7-b7b5-87e3be8ce357-jaads*Issued: Jan 2025 | Expires: Oct 2025*

Responsive Web Design
freeCodeCamp | Credential ID: fcca54b9eeb-7239-45a7-b7b5-87e3be8ce357-rwd*Issued: Jan 2025 | Expires: Jun 2025*

Salesforce Developer Basics
– Simplilearn

Internship

Data Analyst Intern, *Unitech Academy*
Bengaluru
Mar 2024 – May 2024
- Conducted data analysis on **1M+ records**, ensuring alignment of infrastructure with business goals and improving data retrieval efficiency by **30%**.
- Created automation scripts that **reduced data processing time by 40%**, streamlining reporting workflows.
- Built predictive models using scikit-learn and Kaggle datasets, increasing data-driven decision accuracy by **25%**.
- Earned a **Data Analyst Certification**, validating expertise in SQL, NoSQL, and machine learning techniques.
